

Villa Althea

Welcome Home

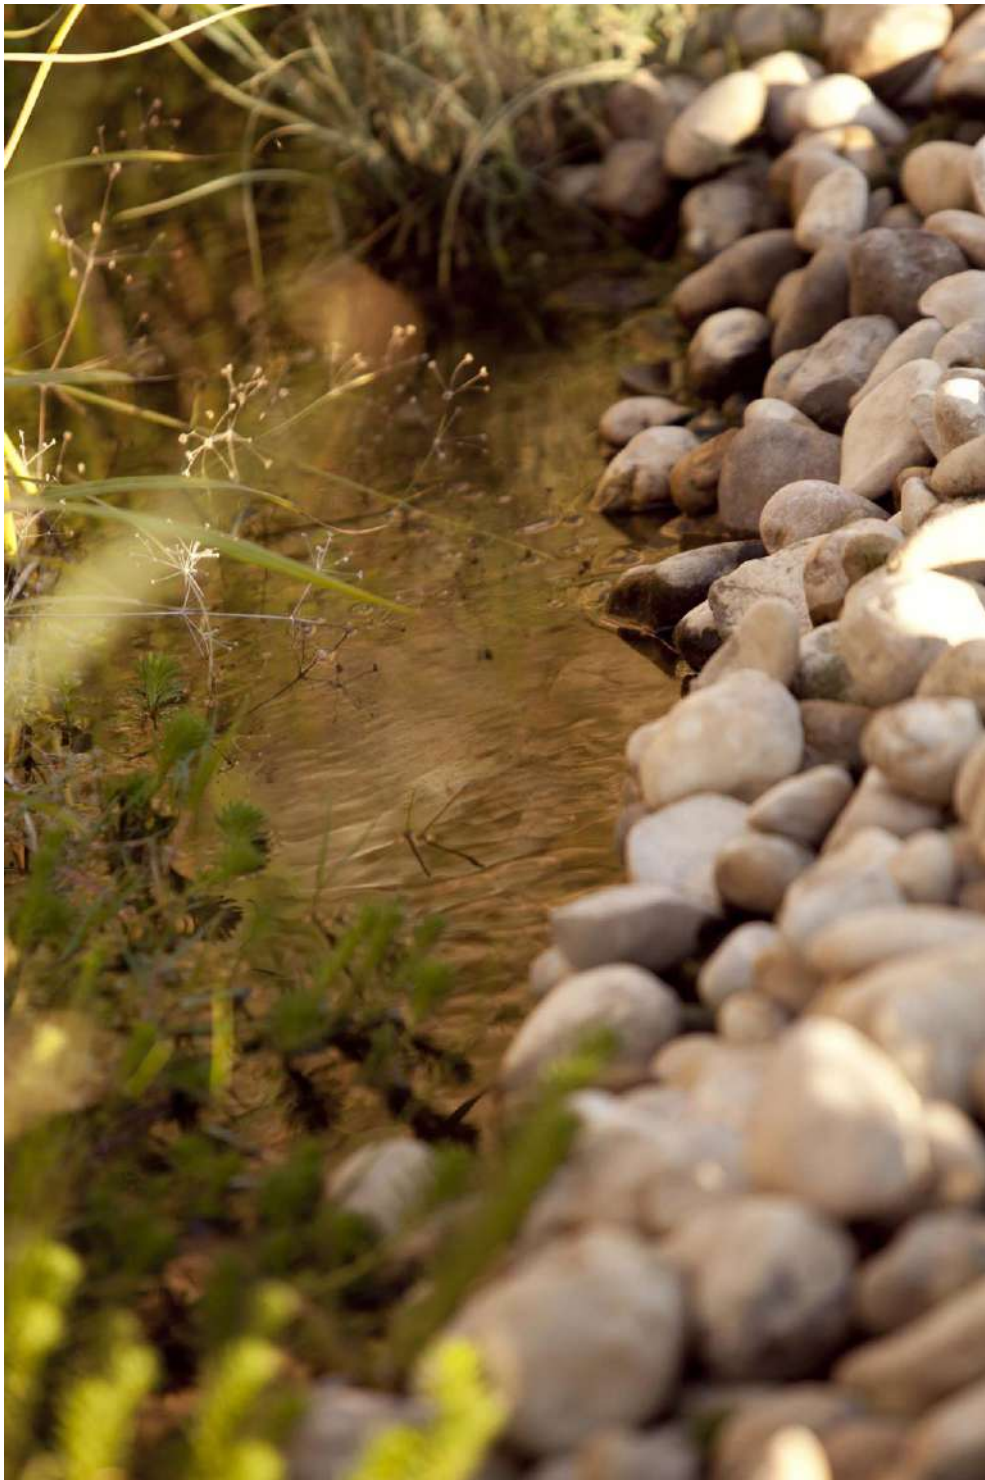

An event is: celebration, emotions, excitement, love . . . managing it all takes more than one person.

A close-knit team must work like an orchestra to make everything a success.

Our ambition is to design and bring to life events that are thrilling, engaging, and unforgettable.

Your ideas, your passions, and the experience we've built over many years come together to create precious moments—of beauty and pure joy to share with the ones we love.

Living a Dream in Nature

To live a dream, immersed in nature, and spend unforgettable moments in a garden cared for with devotion.

Today, nature—nurtured and protected—is the true protagonist of our Villa. The Park we envisioned has been shaped into different areas, gently unfolding from the valley as it rises along the slope of a small hill.

We have learned to love a place where time seems to stand still:
to listen to the murmur of water, the song of the birds, to lose ourselves in the park, embraced by the scents of licorice, lavender, and jasmine.

More and more, and ever better, we long to share the love and care with which we have learned to live, cherishing and harmonizing with nature.

OVER FIVE HECTARES OF PARKLAND TO EXPERIENCE YOUR EVENT

Villa Althea lives in harmony with the nature that surrounds it, nestled in the hills of Monte Rageto, near the Benedictine Basilica of Sant'Angelo in Formis.

The park of Villa Althea is a place of great charm, both for its panoramic position and for the setting that offers breathtaking sunsets.

Its beauty lies in the harmony where different styles coexist, enriched by the abundance and variety of rare plants and essences— the fruit of many years of dedication.

The park, with its five hectares, is divided into four areas: the English Garden, the Italian Garden, the Pomegranate Garden, and the Ancient Hill.

The English Garden

A delicate wrought-iron gate, hand-forged in France, opens the way back to Provence, where the fragrance of lavender rises from the hedgerows, weaving color and life into the garden.

Romantic and timeless, adorned with noble trees, it reveals vistas of rare charm, born from a masterful balance of extraordinary proportions.

The eye is drawn to the striking contrast between the precise geometry of avenues and fountains and the soft, mingling borders—crafted in the spirit of English gardens—that infuse the scene with grace and enchantment.

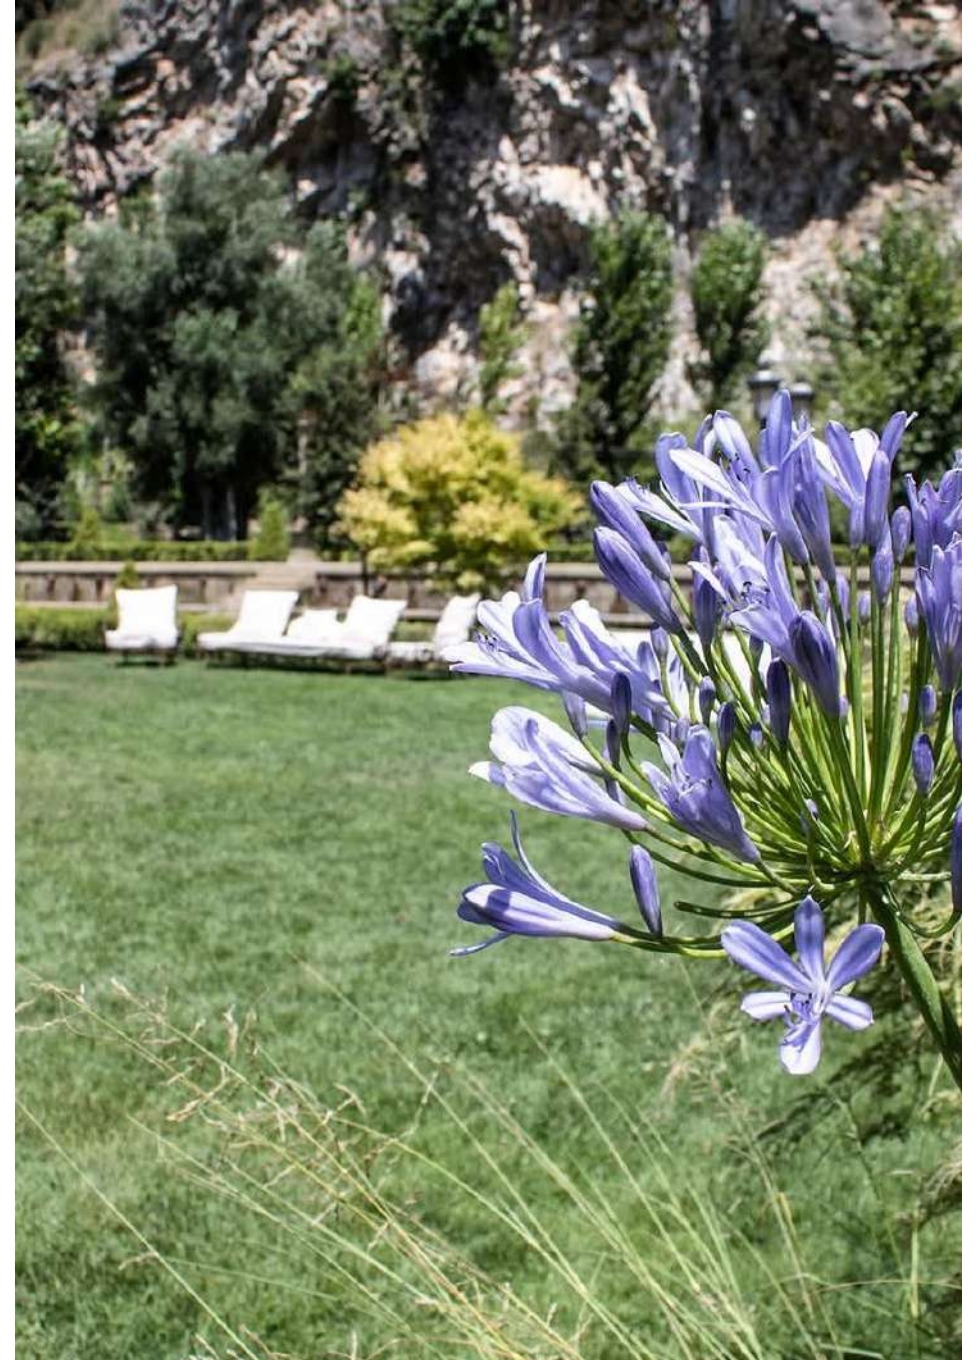

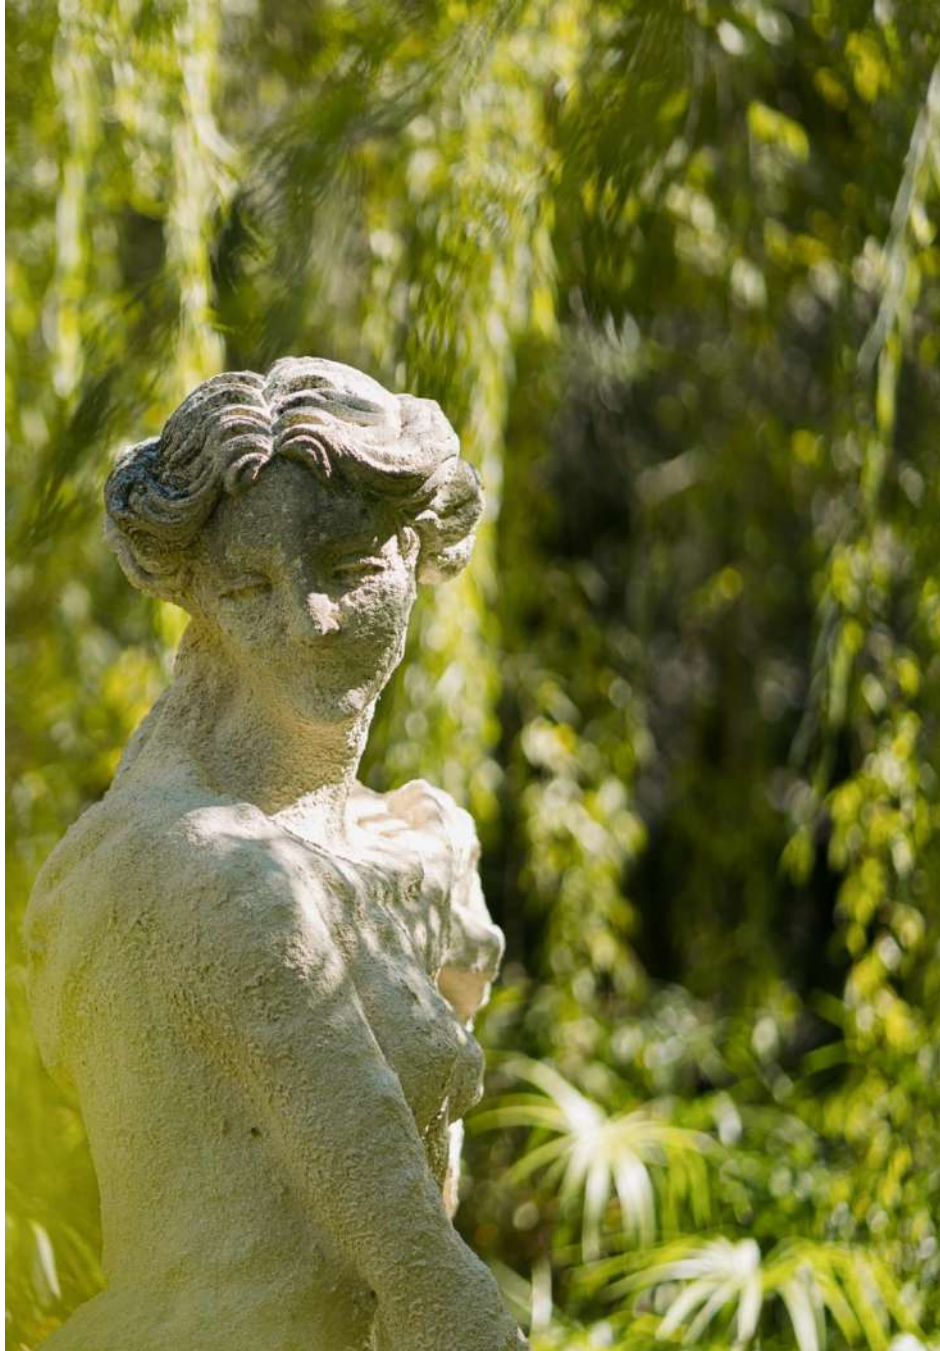

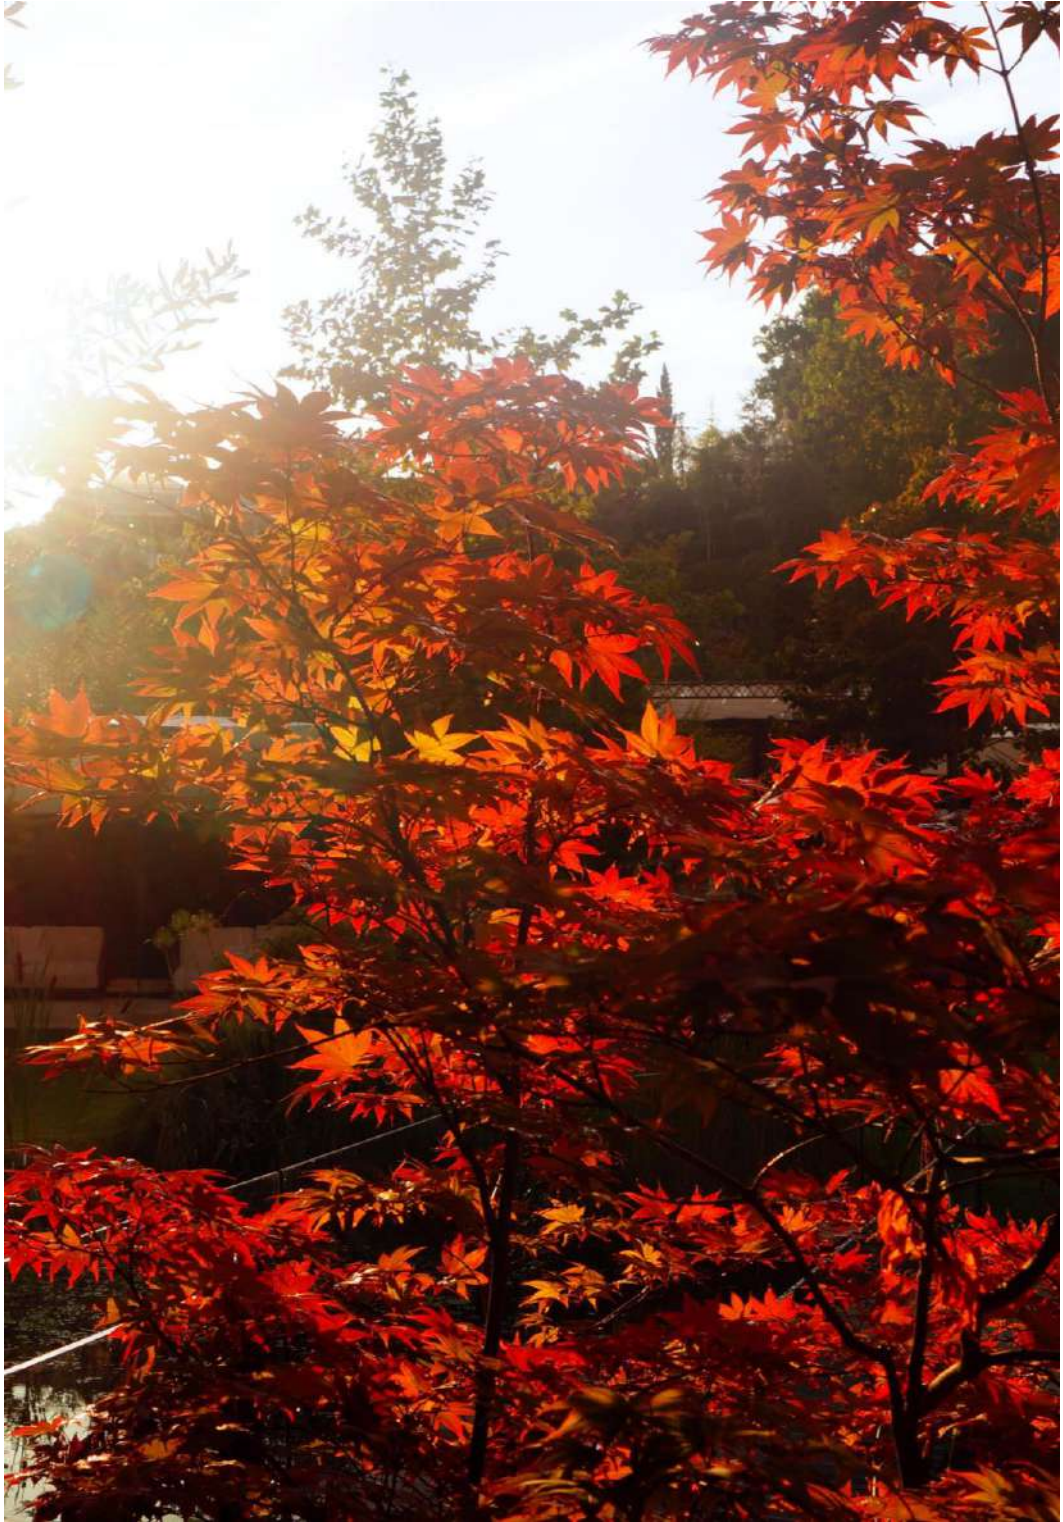

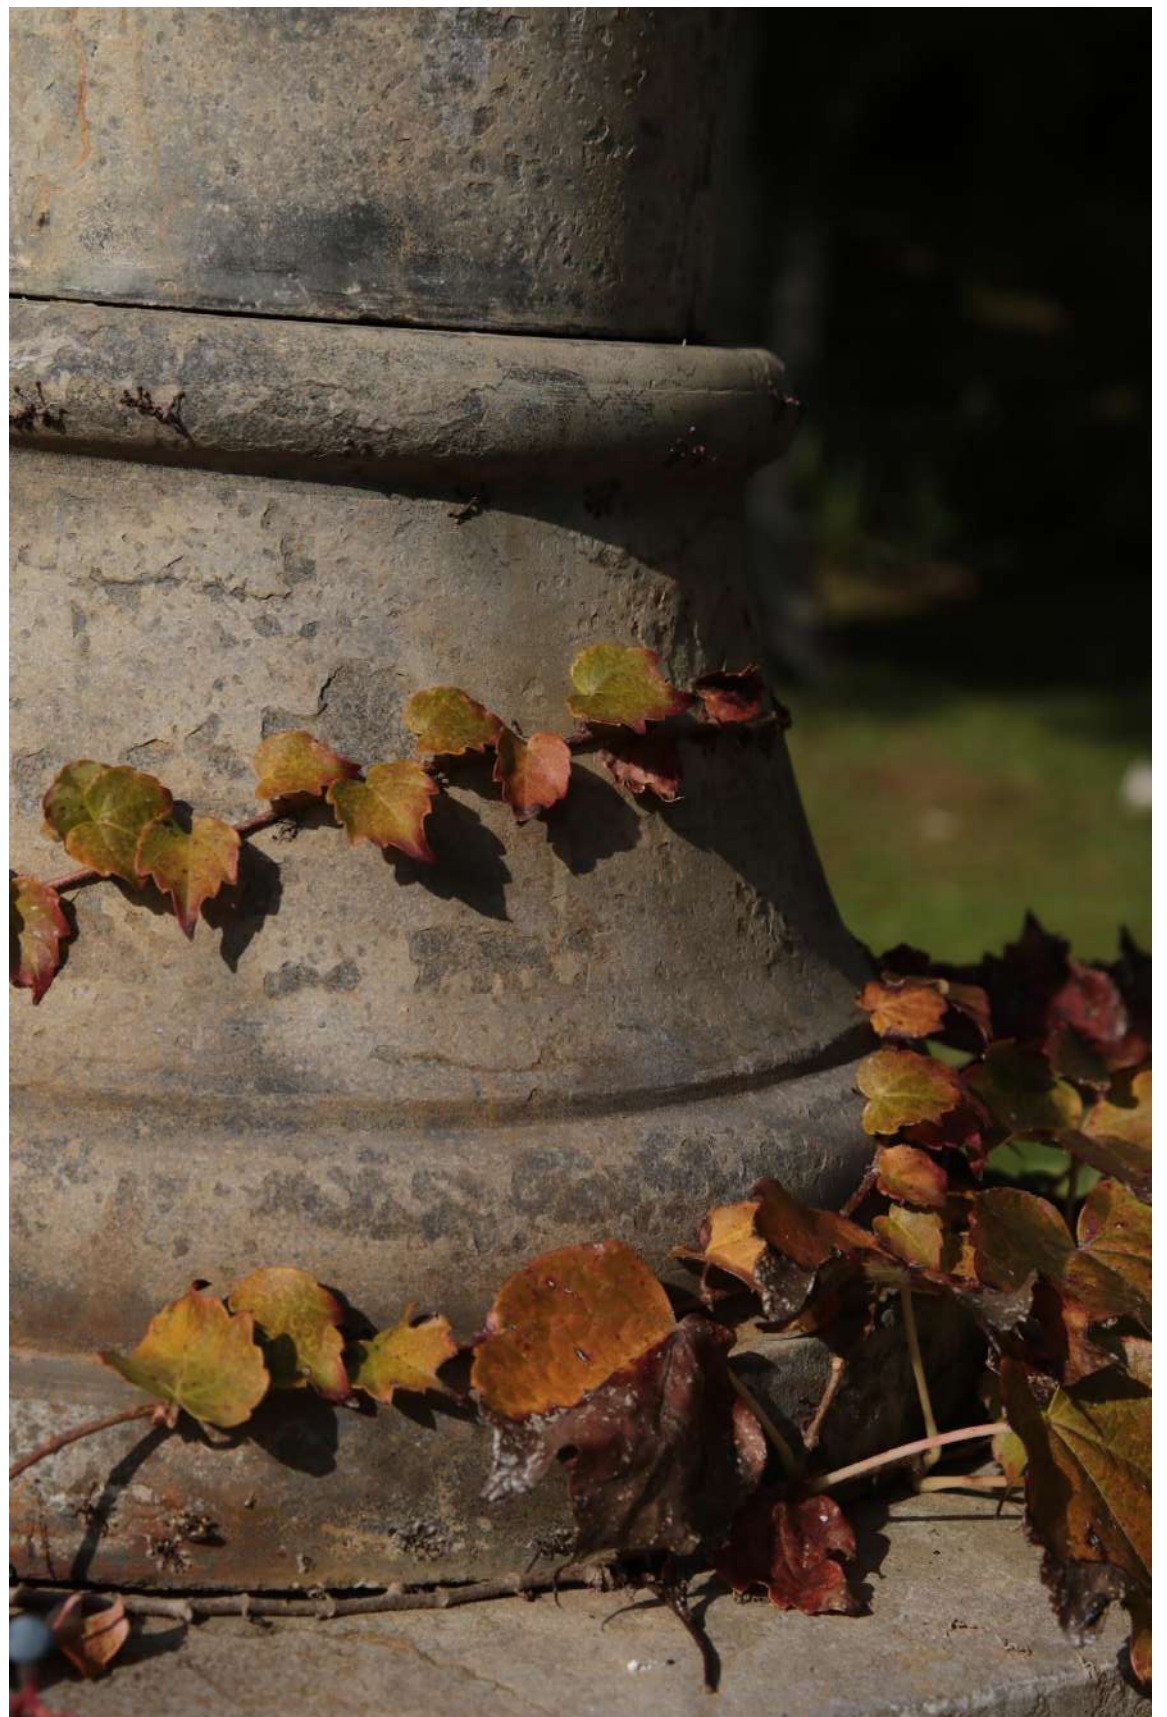

THE ITALIAN GARDEN

Green geometries, avenues of sculpted hedges, streams that sing with the voice of water: the Italian Garden is a tribute to harmony, to beauty conceived and lovingly preserved.

To stroll along its ordered paths is like walking through a page of Renaissance poetry: every corner is refined, every perspective designed to enchant the gaze.

The Italian Garden is the perfect stage for those who wish to celebrate love in a space where everything breathes beauty, elegance, and timeless perfection.

In the shade of towering horse chestnuts we find: jasmines, buddleias, davidias, lavender, and irises.

“WE CELEBRATE STORIES DESTINED TO LAST FOREVER.”

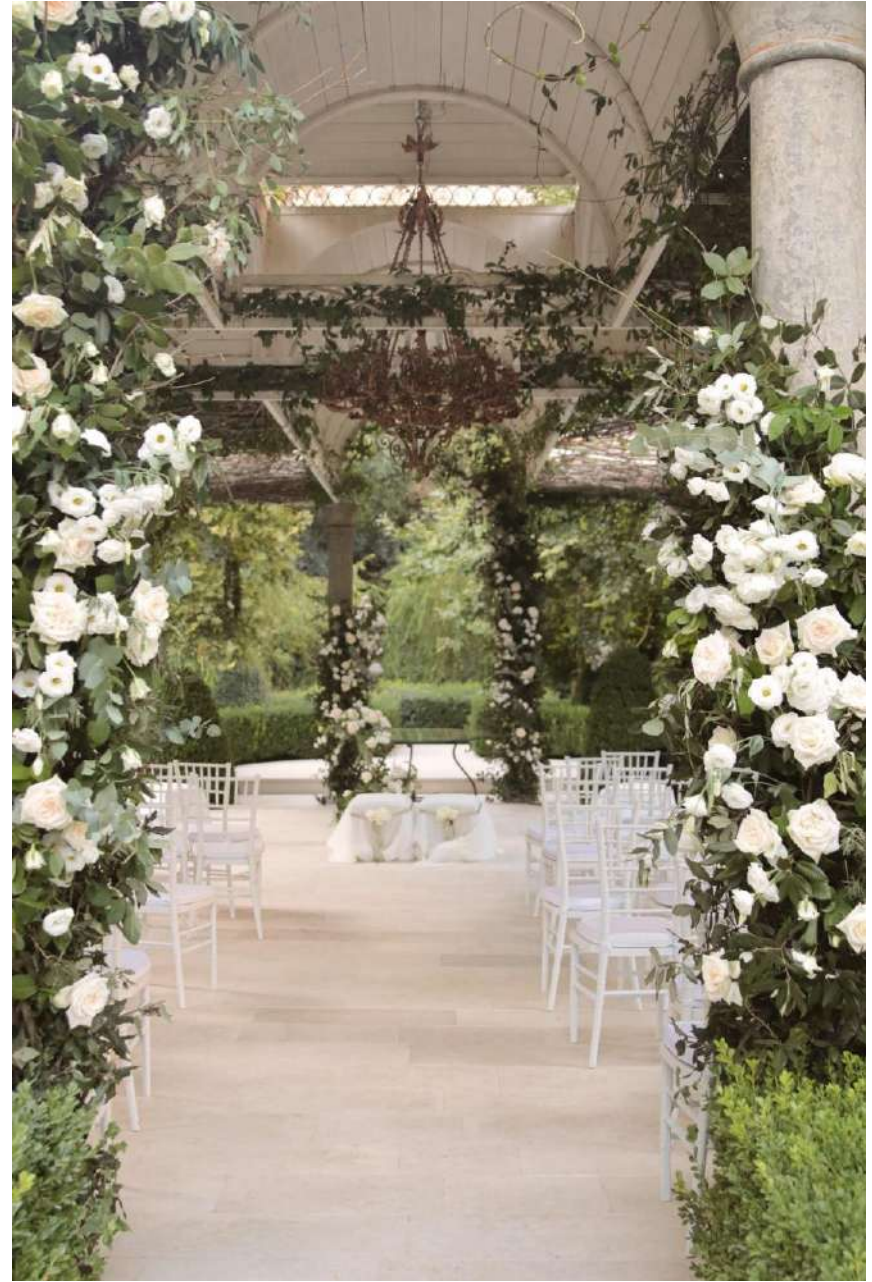

Our work consists in creating atmospheres where one can breathe the emotions of those who have chosen to celebrate their wedding in the Villa.

We listen to the story of our clients, drawing inspiration from their tale, gathering images and materials, and then begin sharing our ideas and the experience gained over more than ten years of work.

“We love the intimacy born from exclusivity. Every couple is unique to us. Together we shape the event, imagine it, and transform it into reality—emotions, glances, smiles that fill and bring our Villa to life. There are moments in my life that repeat themselves, yet after all these years I am still overcome with emotion—just think of the cutting of the cake.”

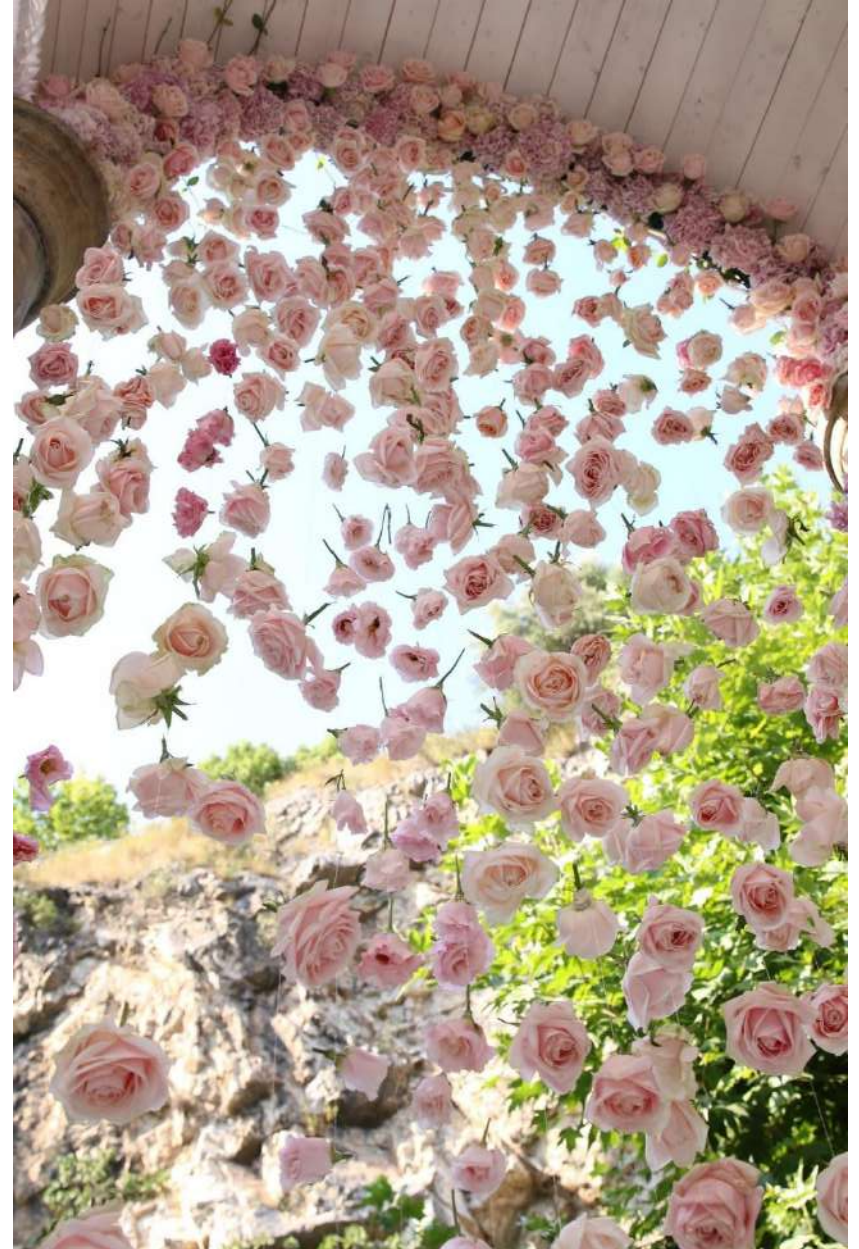

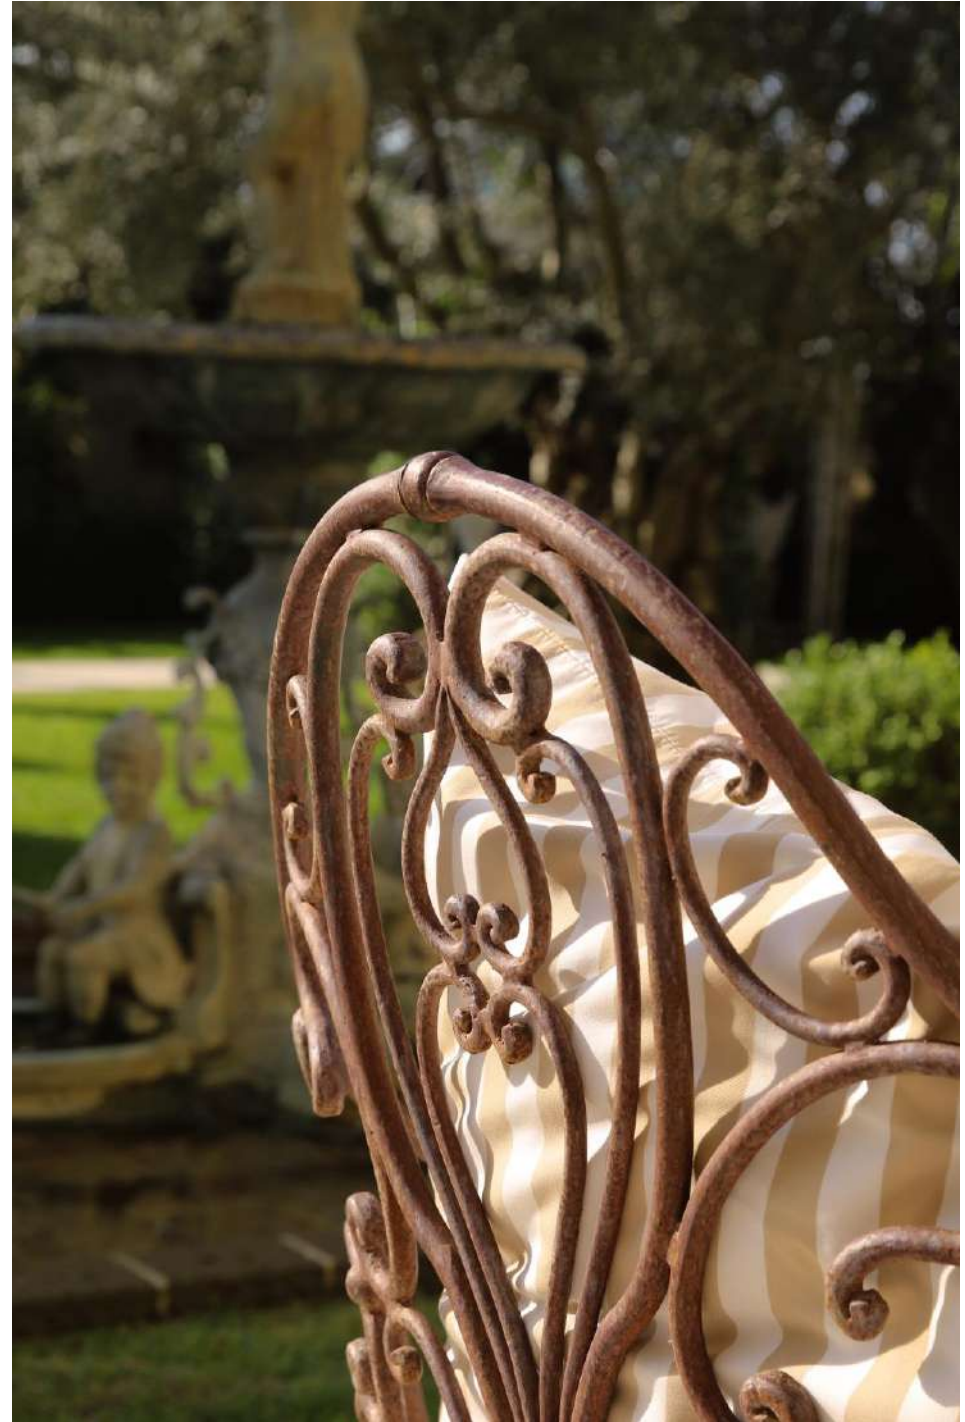

THE MAISON

The Maison is the heart of our venue for ceremonies, a jewel both exuberant and solemn, designed in every detail to reflect Renaissance style.

The refined elegance of its spaces has been conceived to welcome our guests into an atmosphere of sophistication.

The grand hall of our Villa, enriched with silks and designer furnishings, where classical and contemporary elements merge in perfect harmony.

THE GARDEN OF THE NAIADS

Wonderful Conservatory Garden: the octagonal architecture of the structure is crowned by the reflections of a magnificent Murano Cà Rezzonico chandelier, mouth-blown and carrying over a hundred years of history.

The Naiad Garden is a place that seems to be born from an ancient myth, a corner of the world where nature whispers legends of water and light.

Embraced by greenery, this Garden takes its name from the Naiads—nymphs of springs and fresh waters, guardians of beauty and harmony. Delicate flowers bloom among statues, while wisteria and centuries-old trees offer shade and poetry.

“WROUGHT IRON, CRYSTAL, AND ENCHANTING REFLECTIONS”

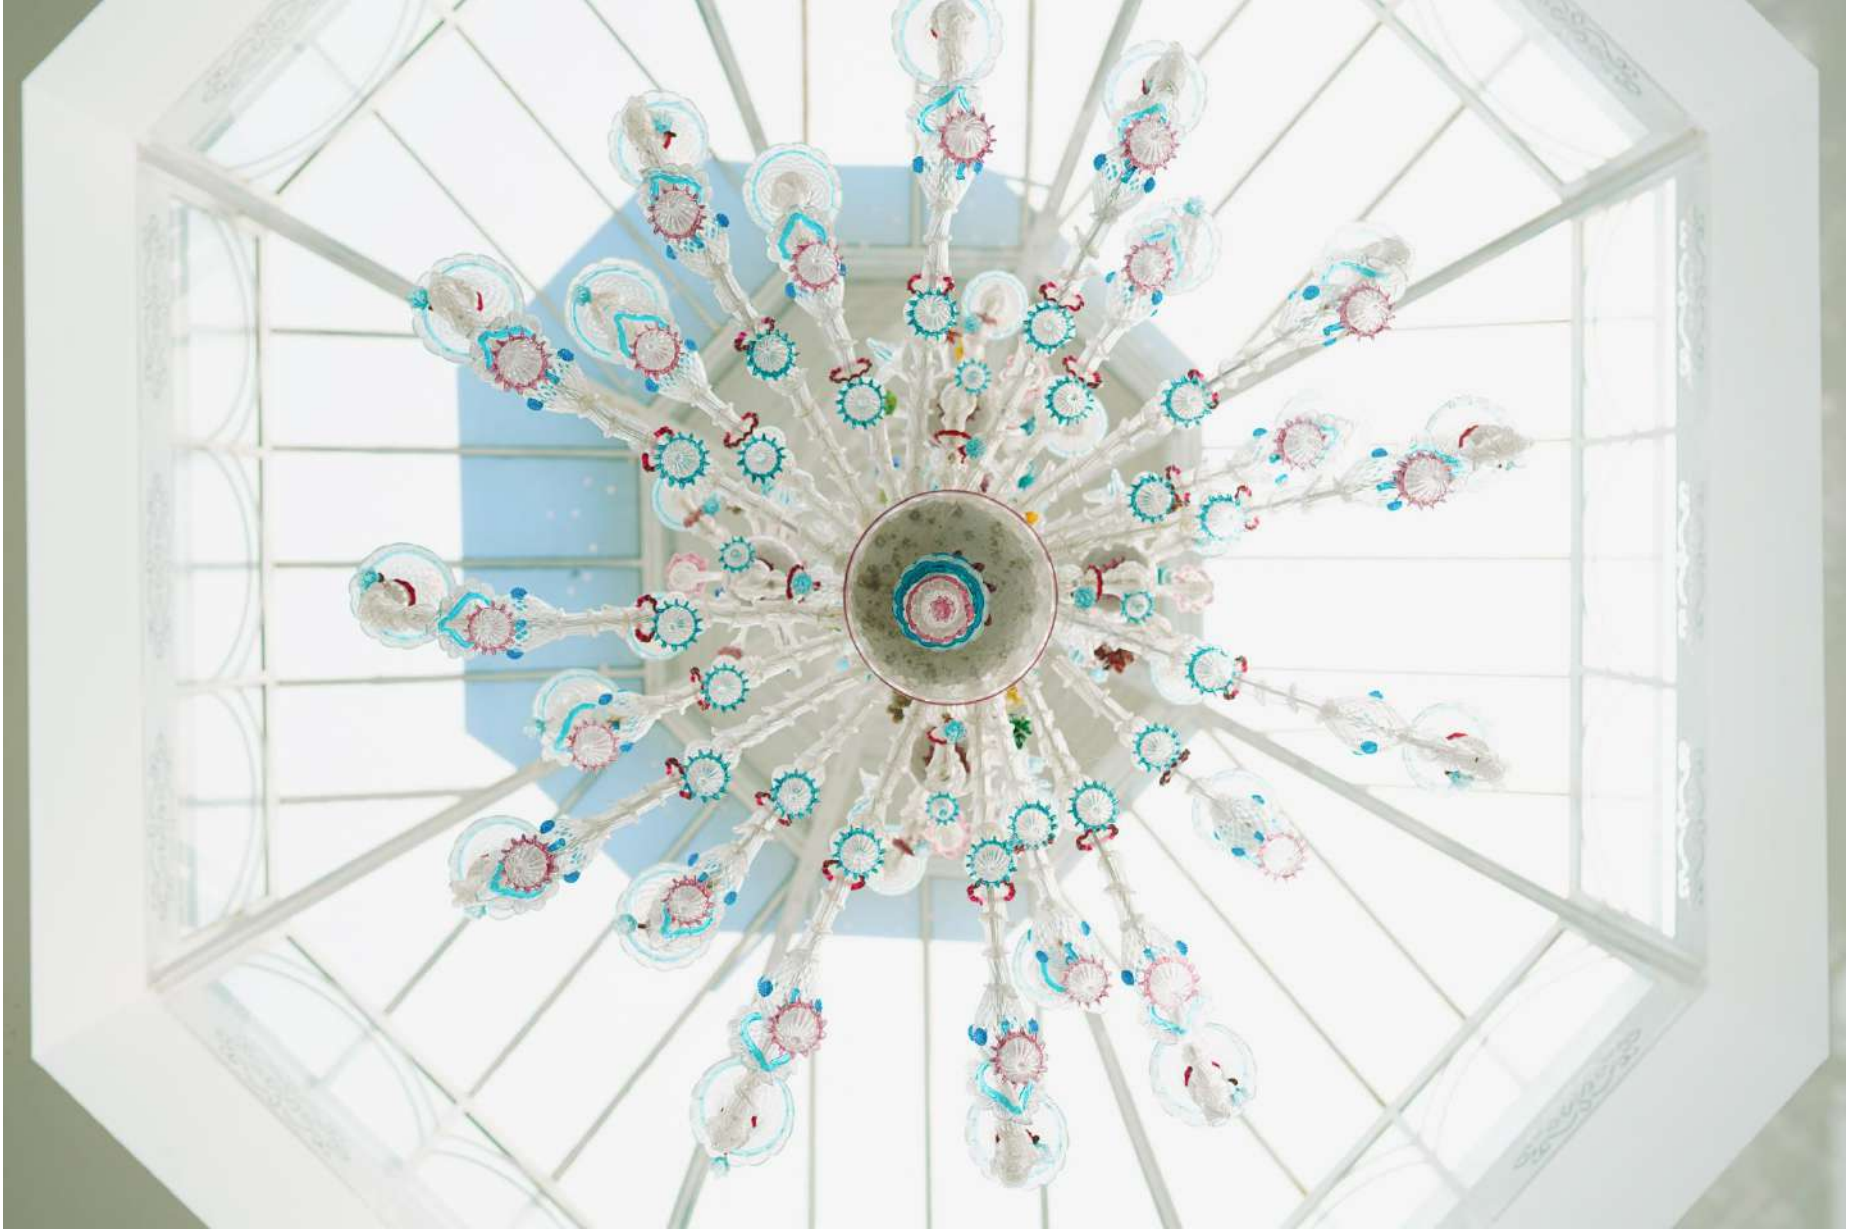

The transparency of the furnishings helps us create an atmosphere capable of interpreting every style of wedding.

It often represents the place where the reception begins, evoking the image of a sheltered garden, giving our guests the sensation of moving and dining outdoors while still enjoying the comfort of a luxurious setting.

The marble fireplace and the intricate floors contrast beautifully with the transparency of Kartell chairs and crystal tables.

Its clean and essential style lends itself to any kind of décor, transforming into your own garden, reflecting the tastes and dreams of every couple.

A unique garden for an unforgettable event.

THE POMEGRANATE GARDEN

Hidden among the pomegranate trees, a small tuff stone staircase leads to a magical place where one can listen to the sounds of nature—the wind in the leaves, the birdsong in the air.

A place made magical by the changing seasons, by colors, flowers, fruits, and the enchantments of nature.

ANCIENT HILL

The ancient Hill is a nature trail that begins in a small grove of oaks and centuries-old olive trees, winding along the eastern slope of the hill, amidst unspoiled and wild nature.

We hope to soon open this area as well to all our guests.

WE TAKE CARE OF EVERY LITTLE DETAIL

On a special day—be it a wedding, a glamorous birthday, or a truly memorable celebration—what makes the difference is the vision, the management, and the seamless realization of the event.

Every detail, from the lights to the arrangements, must be perfectly orchestrated and harmonized with the excellence of the cuisine and service.

We believe that the fine line between an ordinary yet pleasant gathering and a truly unforgettable celebration lies in that extra touch—something only a professional designer can bring.

This is why we created a team, led by Lara Parente, dedicated to crafting extraordinary atmospheres of deep emotional impact, leaving no detail overlooked.

EVENT DESIGN

*"The difference between
a pleasant yet ordinary
event and a truly
wonderful celebration lies
in that extra touch—
something only a
professional designer can
bring."*

“Our passion for nature and our love for beauty are the sources of inspiration behind every décor proposal we create for our clients.

A wedding is a unique, timeless event, forever cherished in memory and in images.

That is why we dedicate our utmost energy to the art of designing and arranging settings.

We blend each couple’s style and vision with trends, palettes, and every possible material to craft an event that is polished, refined, and elegant.

For us, designing does not mean transforming a place, but completing it—infusing it with soul.”

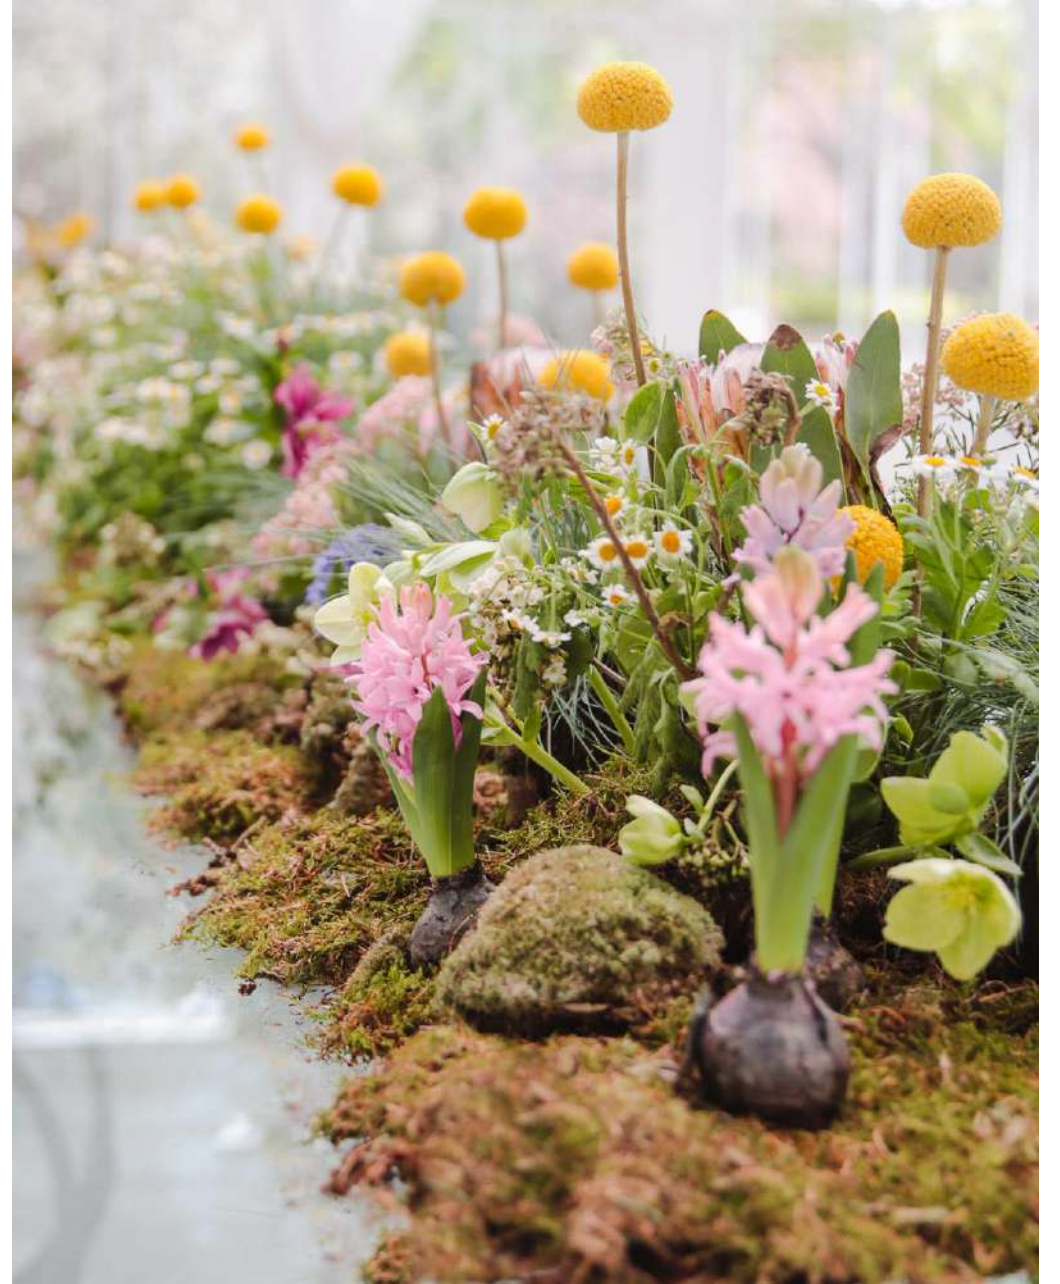

*Ci sono momenti nella vita
in cui il regalo più bello
è essere presenti.*

Grazie!

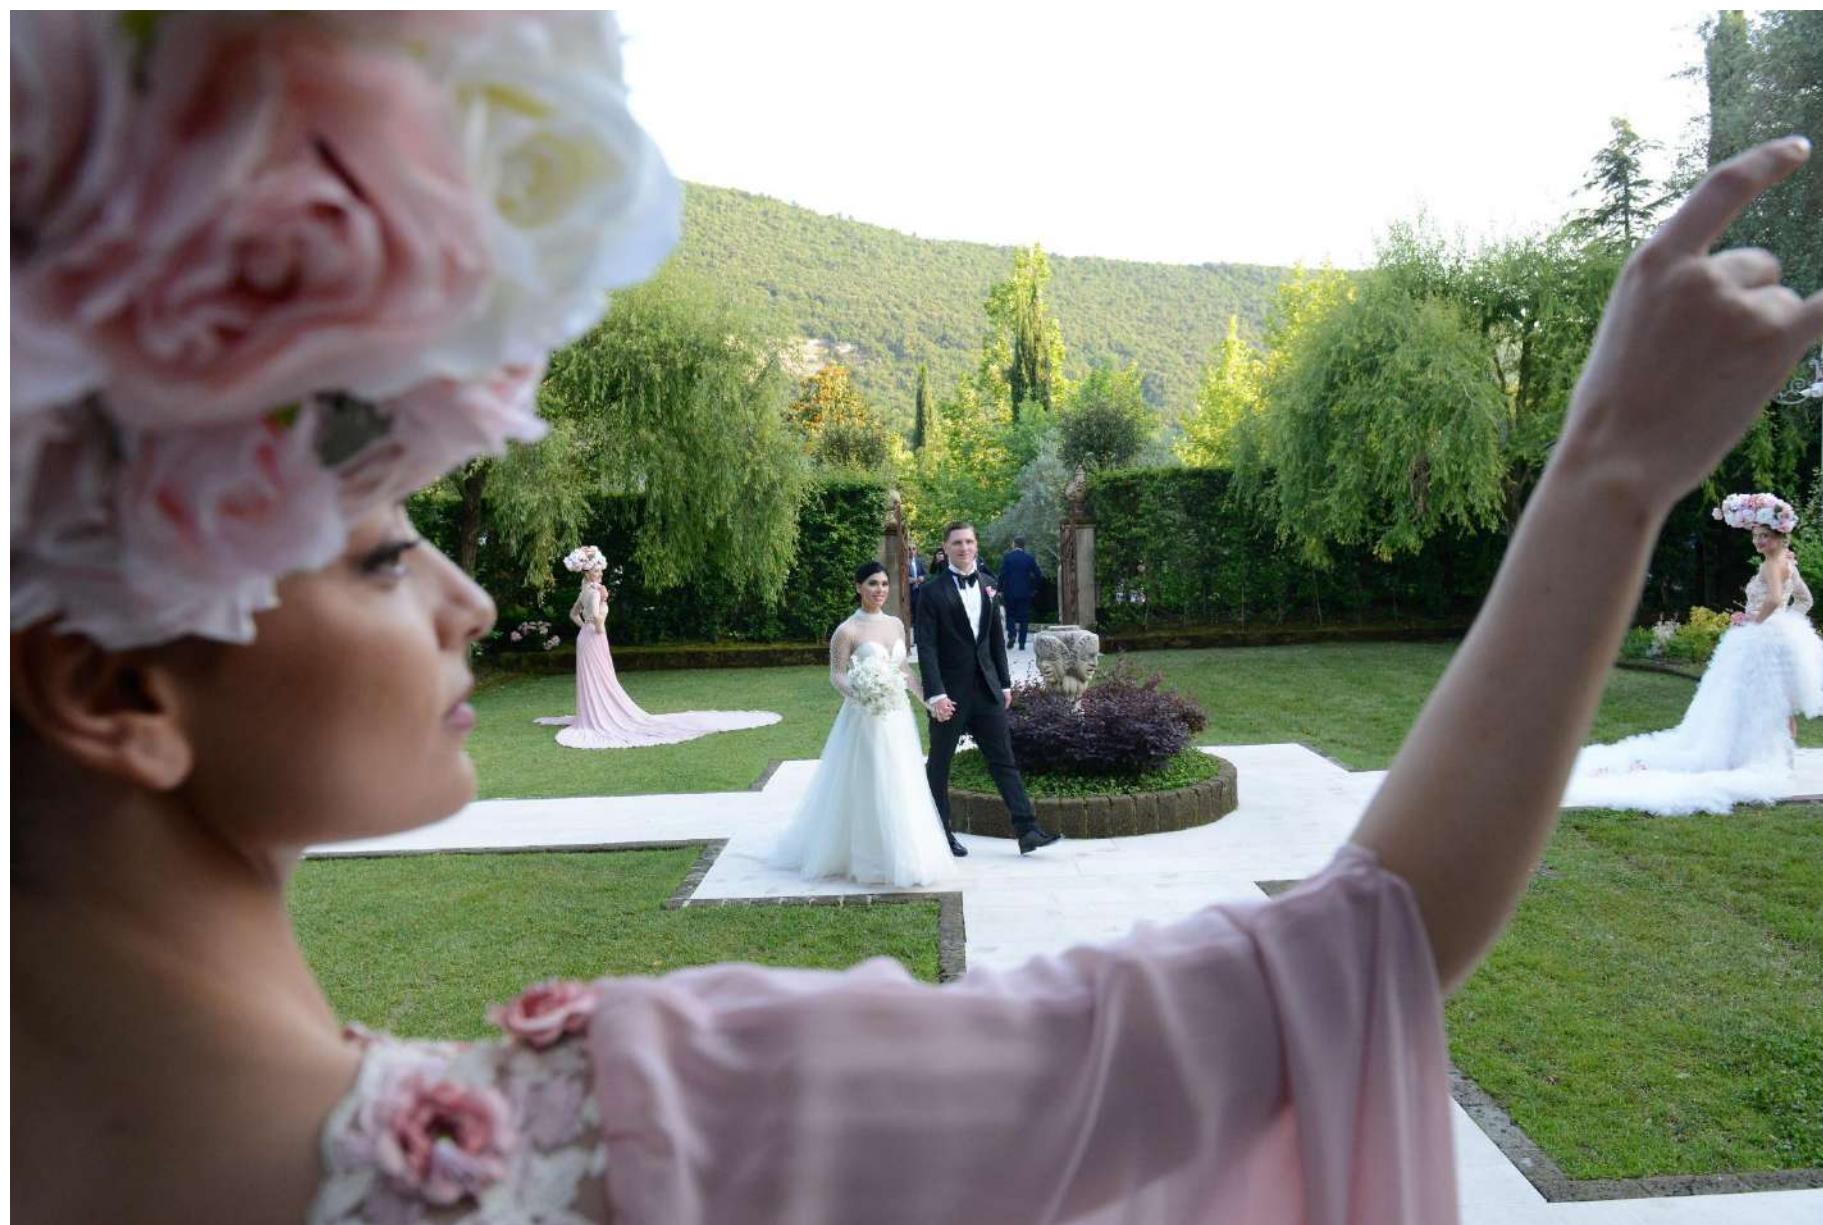

ARTISTIC DIRECTION

A seamless flow of music, lights, and choreography.

The careful design of musical paths, the choice to weave in moments of spectacle, and the vision of creating settings that inspire enchantment and emotion—these are what allow us to make every event truly unique.
